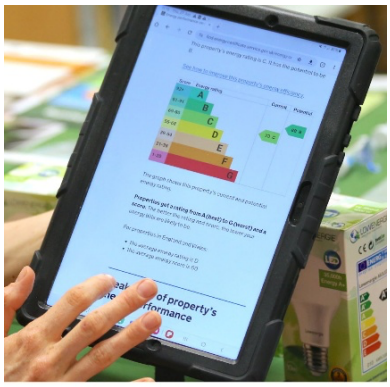
Free Advice to Reduce Your Home Energy Bills



The Environment Centre has launched a ground-breaking service to make our homes warmer, greener and cheaper to run.

It's called ***My Home Made Better***, and it offers free and impartial advice on everything from insulation and heating upgrades, to switching to new energy-efficient technologies.

Experienced energy advisers will simplify complex information and dispel myths to guide you through your options and help you find the best ways to keep the heat in, lower your energy bills, and make your home more comfortable.

This is how it works:

1. You call 0800 804 8601 (or email) to chat with one of the friendly advisers. Lines are open Monday to Friday from 9am to 5pm.
2. You'll be asked about your property and circumstances, following which you will receive tailormade recommendations and your own personalised plan. This will comprise a summary of everything discussed, including recommendations and things to consider before taking your next step.
3. When you're ready, search the independent directory to find local suppliers and installers.

This should be a fantastic new service, and I encourage everyone to make use of it! For more information go to **myhomemadebetter.org**
